THE CHANNEL STRIP OF YOUR DREAMS

NOW AVAILABLE for \$149 with FREE iLOK (plus shipping)

The VIRTUAL MIX RACK continues the Slate Digital tradition of providing the absolute most authentically modeled analog sound in a digital audio plugin.

The 'VMR' includes four world class mix modules, including two classic equalizers and two versatile mix compressors, with more modules to be developed.

The 'VMR' operates as a Virtual 500 series rack with hot-swappable modules, putting your whole processing chain in ONE WINDOW. This allows you customize your own channel strip, with signal flow following the modules, in any order you choose. Mix and match filters from different EQs. Chain an EQ before or after your compressor. Moving modules around is easy, fast, and creates no break in audio playback. Audition signal chains faster, easier, and in real time with the Slate 'VMR'.
